

What are Benchmarks?

• Measured execution “time”

• **Assess performance characteristics**

• structured, repeatable way

• Looking for trends:

Identify regressions

• ***Measure optimization attempts***

• ***Comparative environments***

What are Benchmarks?

- Measure code execution “time”
- Assess performance characteristics
- Structured, repeatable way
- Looking for trends:
 - ***Identify regressions***
 - ***Measure optimisation attempts***
 - ***Compare environments***

Micro vs Macro Benchmarks?
