

# Realtime Quiz Question 2:

**Is this real-time safe?**

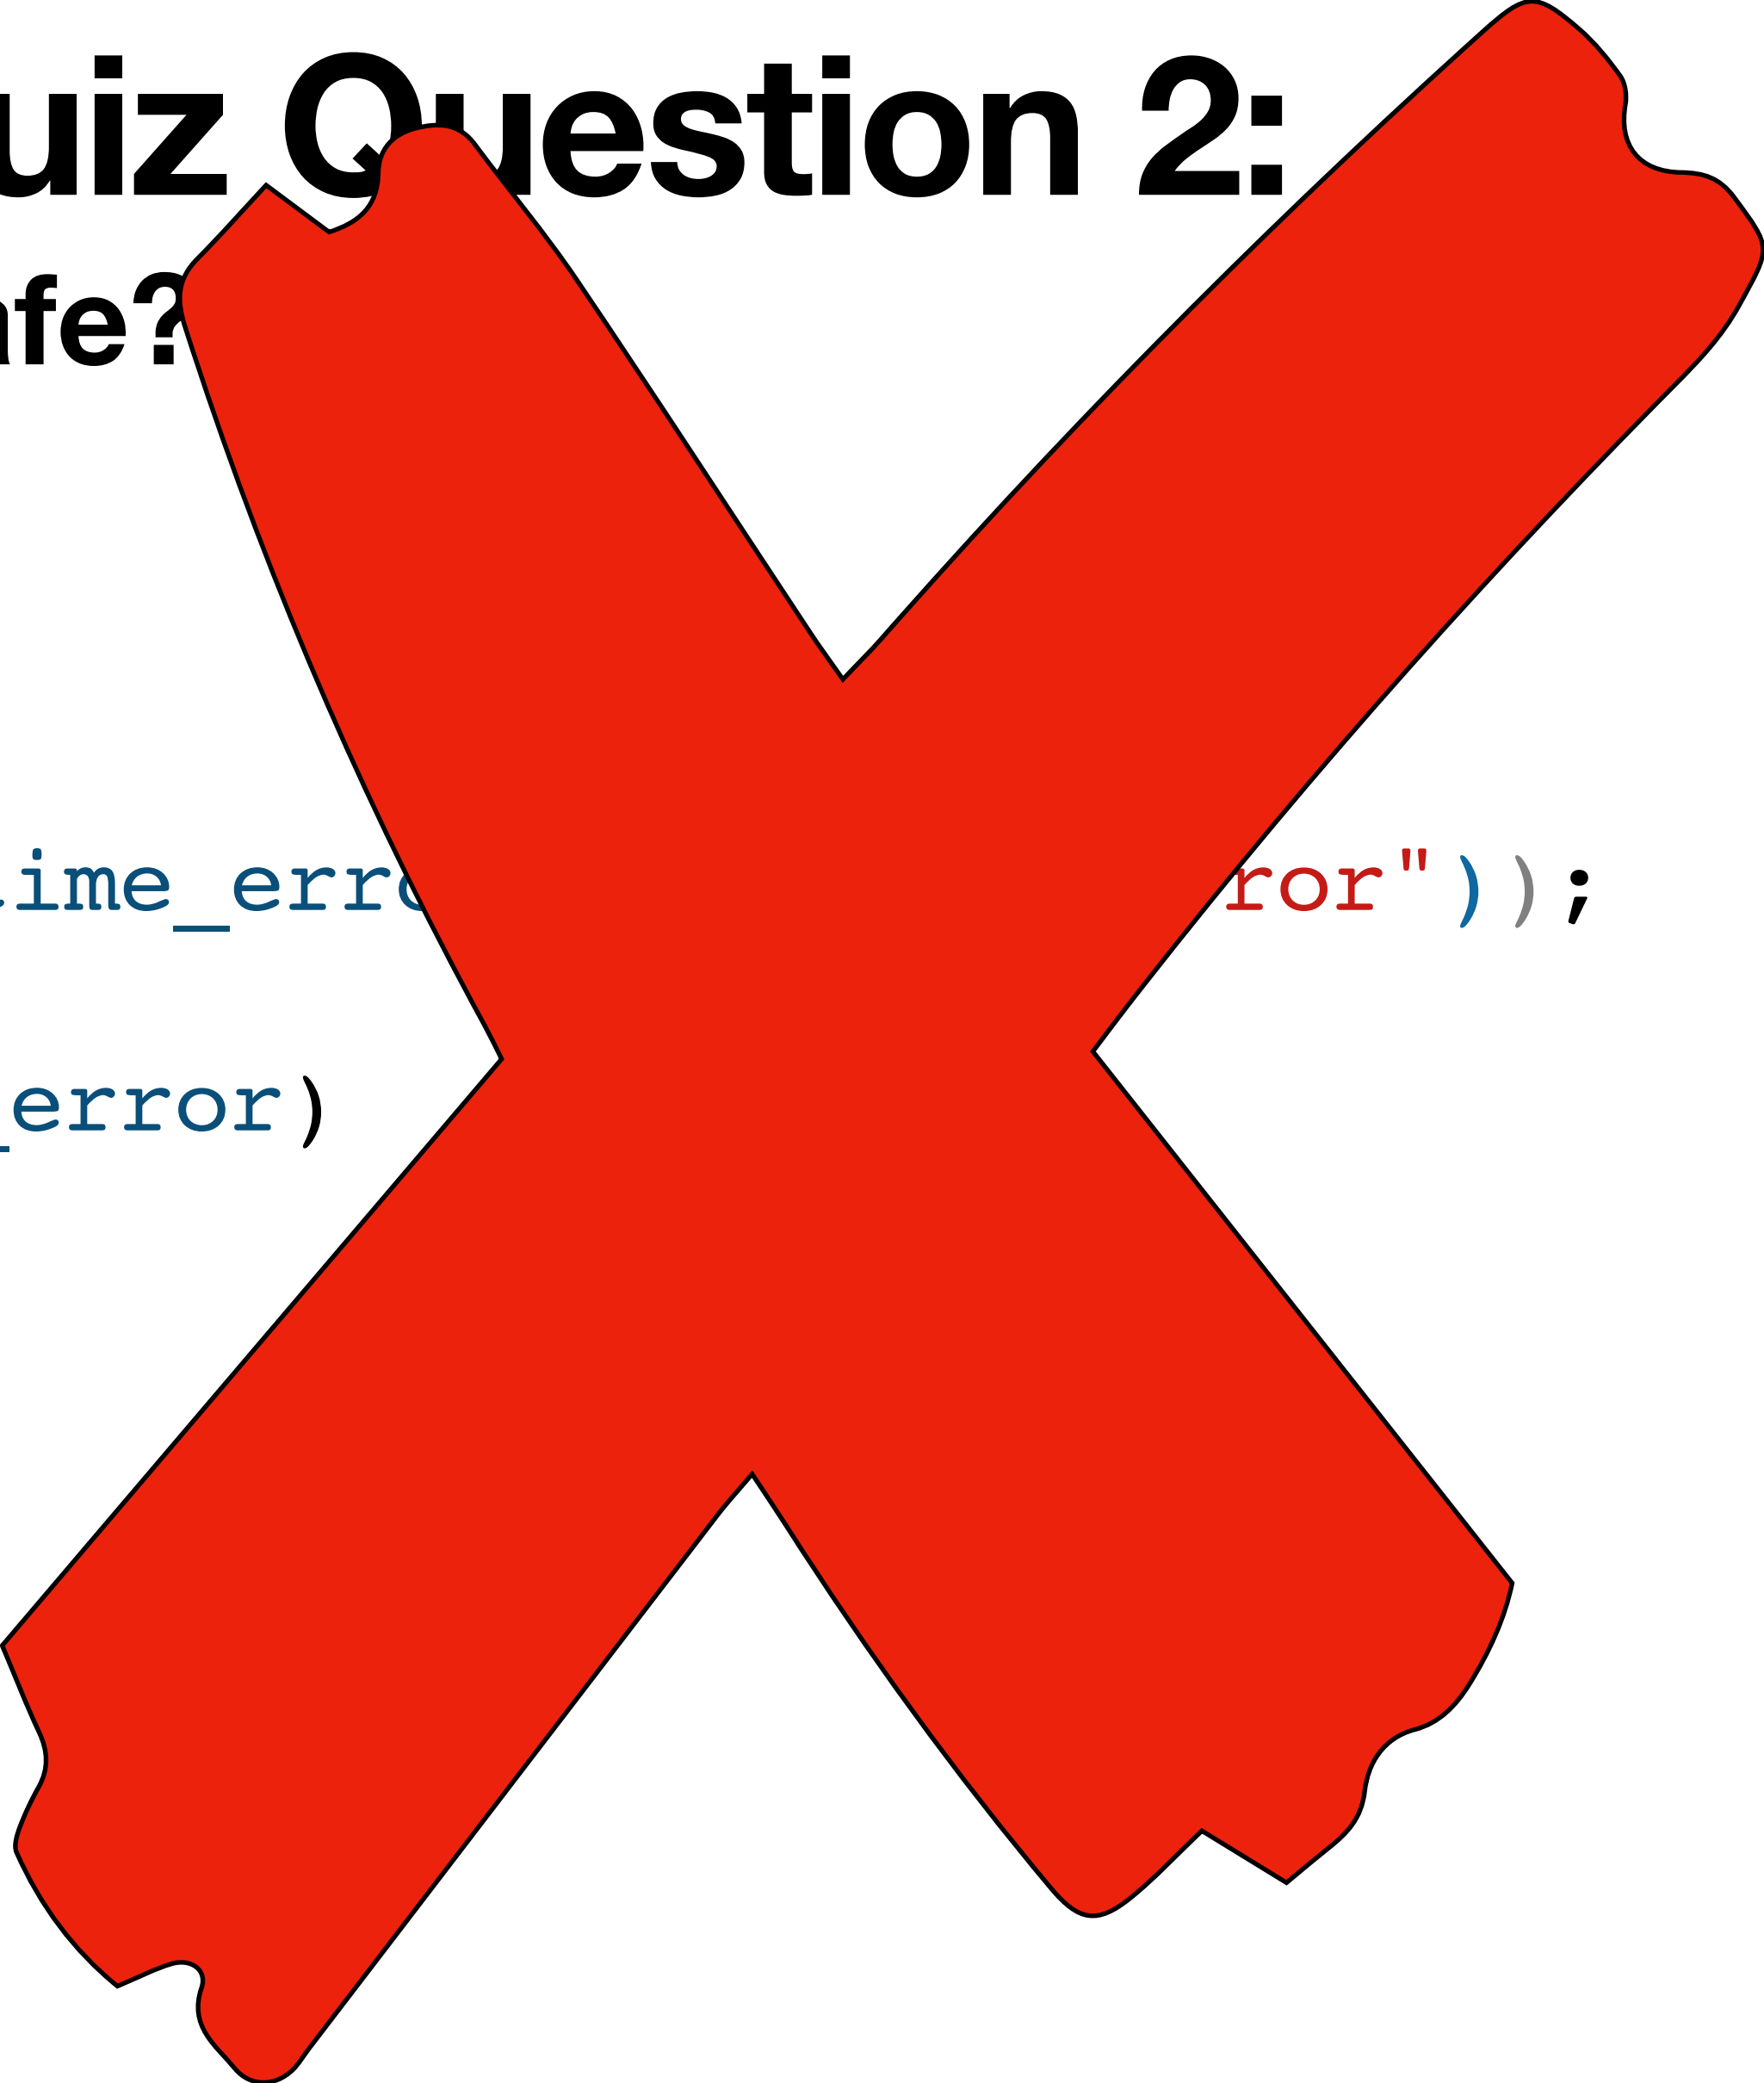

```
try
{
    throw (std::runtime_error ("runtime_error"));
}
catch (std::runtime_error)
{
}
```

# Real-time Quiz Question 2:

Is this real-time safe?

```
try
{
    throw (std::runtime_error("error"));
}
catch (std::runtime_error)
{
}
```
