

Arrangement

- Specify properties of objects in this model

• Clipwithstart/length/source file etc.

• Higher level concept than playback graph

• I should / I'm not as fairly well to U

• Audio graphs needed to be built from this

• I will be built on top of this

Arrangement

- Data model
- Specify properties of objects in this model
 - Clip with start/length/source file etc.
- Higher level concept than a playback graph
 - Usually maps fairly well to UI
- Audio graph needs to be built from this
- UI will be built on top of this
