the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1995. The public sector has become a major employer in the UK, and its growth has been a major factor in the overall growth of the economy.

The public sector has also become a major employer of women. In 1980, only 1.5 million women were employed in the public sector, but by 1995, this number had increased to 2.5 million. This increase has been a major factor in the overall increase in the number of women in the workforce.

The public sector has also become a major employer of people with disabilities. In 1980, only 0.5 million people with disabilities were employed in the public sector, but by 1995, this number had increased to 1.5 million. This increase has been a major factor in the overall increase in the number of people with disabilities in the workforce.

The public sector has also become a major employer of people from ethnic minorities. In 1980, only 0.5 million people from ethnic minorities were employed in the public sector, but by 1995, this number had increased to 1.5 million. This increase has been a major factor in the overall increase in the number of people from ethnic minorities in the workforce.

The public sector has also become a major employer of people who are over 50 years of age. In 1980, only 0.5 million people over 50 years of age were employed in the public sector, but by 1995, this number had increased to 1.5 million. This increase has been a major factor in the overall increase in the number of people over 50 years of age in the workforce.

The public sector has also become a major employer of people who are under 25 years of age. In 1980, only 0.5 million people under 25 years of age were employed in the public sector, but by 1995, this number had increased to 1.5 million. This increase has been a major factor in the overall increase in the number of people under 25 years of age in the workforce.

The public sector has also become a major employer of people who are over 65 years of age. In 1980, only 0.5 million people over 65 years of age were employed in the public sector, but by 1995, this number had increased to 1.5 million. This increase has been a major factor in the overall increase in the number of people over 65 years of age in the workforce.

The public sector has also become a major employer of people who are under 16 years of age. In 1980, only 0.5 million people under 16 years of age were employed in the public sector, but by 1995, this number had increased to 1.5 million. This increase has been a major factor in the overall increase in the number of people under 16 years of age in the workforce.

The public sector has also become a major employer of people who are over 75 years of age. In 1980, only 0.5 million people over 75 years of age were employed in the public sector, but by 1995, this number had increased to 1.5 million. This increase has been a major factor in the overall increase in the number of people over 75 years of age in the workforce.
