

Here Plar:

• Start by showing you don't know what you should watch instead of this one

• Compare how different languages are

• See how C++ might be becoming safer...

• Tie it together at the end (hopefully)

• There will be (many) tangents

The Plan:

- Start by showing you a load of talks you should watch instead of this one
- Compare how safe different languages are
- See how C++ *might be* becoming safer...
- Tie it together at the end (hopefully)
- There will be (many) tangents

The Goal:
