

The screenshot displays the Ableton Live interface in Arranger View. The top section shows the Master track and various instrument racks such as Micro Drum Sampler, HP/LP filters, Compressor, and S Delay. Below these are several audio tracks including Drums, Hi-Hats, Percussion, Bass, Chill Chords, High Cut Chords, Rip Lead, Counter Blips, Stutter Keys, Filter Keys, RetroMod Digital, Vocal FX, and FX. Each track contains colored clips representing different musical elements. At the bottom, there's a timeline with playback controls, a piano roll editor, and a MIDI keyboard input area.

“Software engineering is programming integrated over time”
