Disabling RTSan

(From GitHub)

```cpp
__attribute__((no_sanitize("realtime")))
void mutex_unlock_uncontended (std::mutex& m)
{
    m.unlock();
}

[[clang::realtime]] float process (float x)
{
    ...
    mutex_unlock_uncontended(m); // I know this is always uncontended, thus real-time safe!
    ...
}
```

Disabling RTSan
