What are Benchmarks?

- Measure code execution "time"

- Assess performance characteristics

- Structured, repeatable way

- Looking for trends:

- *Identify regressions*

- *Measure optimisation attempts*

- *Compare environments*

What are Benchmarks?

- Measure code execution "time"

- Assess performance characteristics

- Structured, repeatable way

- Looking for trends:

  - ***Identify regressions***

  - ***Measure optimisation attempts***

  - ***Compare environments***

Micro vs Macro Benchmarks?
